

PLANT PROTECTION

Deadline® 40

One Last Meal for Slugs & Snails

Patent No. 4,961,929

**CAUTION
KEEP OUT OF REACH OF CHILDREN**

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Do not induce vomiting. Seek medical assistance immediately. If in eyes:

Flush with plenty of water for at least 15 minutes and get medical attention.

If on skin: Wash with soap and water for at least 15 minutes.

ACTIVE INGREDIENTS:

Metaldehyde (2,4,6,8-Tetramethyl-1,3,5,7-Tetraoxocyclo-Octane) 4%

INERT INGREDIENTS: 96%

TOTAL: 100%

EPA Reg. No. 64864-1

EPA Est. No. 64864-WA-1

DIRECTIONS FOR USE

EASY TO USE Ready-To-Use Formulation. No Water Dilution Required. **LONG LASTING** Remains effective after rain and watering. Not easily dissipated by water. It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

DO NOT APPLY DIRECTLY ONTO PLANTS. DO NOT MIX WITH ANY SEEDS PRIOR TO APPLICATION. Apply 3 to 4 gallons per acre (8.6 lb/gal.). Apply every 3-4 weeks during growing season, or as needed. For best results, apply in evening. Especially beneficial following rain or watering. Application of Deadline 40 can be easily made through a knapsack or backpack type sprayer or other similar applicators with spray tip and

screens removed. For small areas, Deadline 40 can be applied direct from the gallon container. Larger field applicators are available of different designs. Consult your agricultural dealer or Pace International LLC for more information.

Mollusks are nocturnal and feed and travel mostly during the night when soil is moist and humidity is higher. For best results, apply towards evening hours. Apply after rain or irrigation on moist soil surface. Do not apply on dry soil because slugs and snails are inactive, and this condition reduces the longevity of the product.

For any requirements specific to your state or tribe, consult the agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours. PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is:

- Long sleeved shirt and long pants
- Chemical-resistant gloves, such as barrier laminate, nitrile rubber, neoprene rubber or viton
- Shoes plus socks

AGRICULTURAL USE: For slug control, apply Deadline 40 on the soil surface between the plant rows, or before crop plants emerge. Apply products as a series of nickel size drops or a short 1"-2" strip, 12" to 15" apart. For snails, drops can

be applied but it is best to apply Deadline 40 as strips, 12" to 18" long and 3/8" to 1/2" wide at 3 ft. intervals, or a solid line. A perimeter treatment around the field and in the non-crop area should also be included for added crop protection.

SEED GRASSES: Alfalfa, clover, flowers, grasses and vegetables grown for seed.

VEGETABLES: Artichoke, asparagus, beans, beets, black-eyed peas, broccoli, brussels sprouts, cabbage, cantaloupe, carrots, cauliflower, celery, collards, corn, cowpeas, cucumbers, eggplants, endive, garlic, ginseng, horseradish, kale, kohlrabi, leeks, lettuce, melons, mustard greens, okra, onions, parsnips, peas, peppers, pimentos, potatoes, pumpkins, radishes, rhubarb, rutabagas, salsify, shallots, spinach, squash, sweet potatoes, swiss chard, tomatoes, turnips, watermelons.

TREE CROPS: Citrus, avocado, stone fruits, apples, pears, papaya and other tropical fruit trees and bananas. Apply between the tree rows, along the drip line of the tree, or around the trunk of the tree as drops, strips, or line as described above. Apply a line of large drops on soil around drip line or around trunk of tree.

FIELD CROPS: Cereal grains, corn, soybeans, clover, mint, tobacco.

SMALL FRUITS & BERRIES: Blackberries, blueberries, boysenberries, caneberries, loganberries, raspberries, strawberries, grapes, and prickly pear cactus. Apply between the crop rows or alongside the plants.

TURF & ORNAMENTALS: Apply Deadline 40 as drops, strips, or lines on the soil around plants, border, and perimeter areas, under or on nursery table and supports, or on plant containers and flats. May be used within or around ornamental gardens, ground covers and in ornamental greenhouses for flowers, foliage plants and vegetable plants. Also appropriate for ornamentals grown in fields and containers, ornamental grasses, grasses grown for sod and as a perimeter treatment around turfgrass areas and dichondria, as well as around non-crop areas such as building foundations.

Applicator Cleanup: Wash containers and application equipment with water. Apply rinse solution to application sites.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Use product only from original container & keep in locked storage area away from children & pets. Do not store near food, feed, fertilizers, other pesticides or seeds.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Triple rinse (or equivalent) empty container. Then offer for recycling or reconditioning, or puncture & dispose of in a sanitary landfill, or incineration, or if allowed by state & local authorities, by burning. If burned, stay out of smoke.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or absorbed through the skin. May cause eye irritation. Avoid contact with skin, eyes or clothing. This pesticide may be fatal to children if eaten. Keep out of reach of children, pets, poultry and livestock. This pesticide may be fatal to dogs or other pets if eaten. Keep dogs and other pets out of treated areas.

Personal Protection Equipment: Some materials that are chemical-resistant to this product are listed below. If you want more options, follow the instructions for category E on an EPA chemical resistance category selection chart.

Applicators and other handlers must wear:

1. Long sleeved shirt and long pants
2. Chemical-resistant gloves, such as barrier laminate, nitrile rubber, neoprene rubber or viton
3. Shoes plus socks.

Follow manufacturers instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

USER SHOULD: Wash hands before eating, drinking, chewing gum, using tobacco or using toilet. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

ENVIRONMENTAL HAZARDS: For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high watermark. Do not contaminate water when disposing of equipment washwaters.
